CONNECTING WISCONSIN

The **ROAD TO
OPPORTUNITY
for Businesses
Like Yours**

WHAT IS THE US 41 PROJECT?

The Wisconsin Department of Transportation (WisDOT) has announced that US 41 will undergo a corridor capacity expansion project. The expansion will include 31 miles of road in Brown and Winnebago counties to accommodate increasing traffic volumes on the existing highway.

The design includes the construction of 44 roundabouts and the reconstruction of 16 interchanges, with 13 of those interchanges to be completely rebuilt. The Lake Butte des Morts Causeway is being completely rebuilt to include eight lanes.

TIMELINES OF PROJECTS

The project will get underway in 2009 starting in Winnebago County and in Brown County in 2010, continuing through 2016.

OPPORTUNITIES FOR WORK

The US 41 Project is the largest road construction project in the history of Northeast Wisconsin. It will provide opportunities throughout the region for businesses like yours. There is a wide range of work opportunities for all contractors including consultants, construction subcontractors and DBE's:

- **Construction administration:** engineering, surveying and inspection
- **Earthwork:** roadway and drainage excavation, trucking and the removal of old structures
- **Pavement:** asphalt, concrete and base course
- **Structures:** bridges, noise walls, culverts, retaining walls, painting, demolition, piling and steel supplies
- **Traffic control and safety:** pavement marking, signing, beam guard, fence and electrical
- **Landscaping:** top soil, seed, mulch and plantings
- **Trucking**
- **Public outreach:** media, business and local

SUPPORT FOR BUSINESS: WISDOT'S COMMITMENT TO SUCCESS

WisDOT is committed to providing a safe and efficient transportation system that includes promoting access to opportunities for business and labor.

The goal of the Disadvantaged Business Enterprise (DBE) Program is to increase participation of firms owned by disadvantaged individuals as defined by the Small Business Act under the 8(a) program.

The DBE program is one tool for accessing opportunity through it's goal setting mechanism.

The US 41 Project Outreach Office provides training and technical assistance to businesses throughout Northeast Wisconsin. Services include:

- Training in plan reading, responding to bids for service, bonding and construction management
- One-on-one technical assistance
- Obtaining/maintaining DBE certification
- Plan reading rooms
- Access to computer workstations
